VULKEM 45 SSL

Superior adhesion to wet and green concrete and exceptional wear resistance in high tire traffic areas.

VULKEM 45 SSL Product Details:
VULKEM 45 SSL is a high-performance, self-leveling polyurethane sealant that is certified for use in horizontal joints that experience vehicular and pedestrian traffic.

Why choose VULKEM 45 SSL:
VULKEM 45 SSL provides best-in-class performance and can be used on sloped horizontal surfaces with slopes up to 6%.

VULKEM 45 SSL demonstrates exceptional key features:

- Interior and exterior applications
- Ideal for concrete cracks & joints
- Superior adhesion to wet & green concrete
- +/- 35% movement capability
- 100% waterproof
- UV resistant
- Stretches 7 times the applied length
- Rain ready in 2 hours
- Light traffic ready within 72 hours of application
- Permanently flexible over the life of the sealant

Applications:

VULKEM 45 SSL has superior adhesion to concrete, brick, natural stone and wood. It is ideal for expansion and control joints as well as concrete crack repair in sidewalks, driveways, floors, garages, warehouses, swimming pool decks, plazas and other horizontal surfaces.

VULKEM 45 SSL meets and exceeds the requirements for: ASTM C920, TYPE S, GRADE P, CLASS 35, USE T, M, A, O, AND I (CLASS 2)

VULKEM 116 Product Details:
VULKEM 116 is an excellent multi-purpose, non-sag polyurethane sealant for vertical and horizontal exterior sealing applications.

Why choose VULKEM 116:
Backed by Tremco's reputation for quality and reliability, VULKEM 116 offers peace of mind knowing your structures are effectively protected.

Exceptional Features of VULKEM 116 include:

- Extremely durable in exterior applications
- +/- 25% movement capability to honor joint movement
- Up to 300% elongation to adapt to expanding and contracting surfaces
- Maintains flexibility over the life of the sealant
- Non-sag formula can be applied vertically or horizontally
- Textured finish blends with rough surfaces
- Rain ready within 6 hours of application
- Paintable with latex paints
- For exterior use only

Application:

VULKEM 116 applications include poured and precast concrete cracks, joints, brick, natural stone, stucco, window and door perimeters, siding, wood, metal, vinyl, plastic and more.

Available Material:

VULKEM 116 is available in a variety of colors.

VULKEM 116

Extreme durability for your toughest exterior projects.

VULKEM 116 meets and exceeds the requirements for: ASTM C920 Type S, Grade NS, Class 25, Use T, NT, M, A, I class II, and O
